FORECAST | EUROPE

3,32% INCREASE

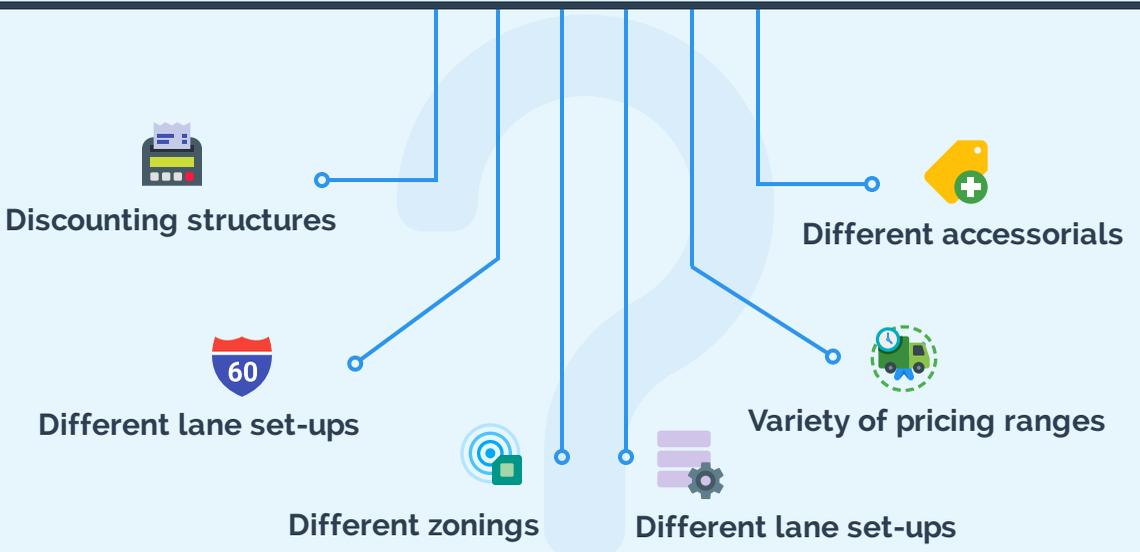

The analysts forecast the express delivery market in Europe to grow at a CAGR of 3.32% percent over the period 2014-2019.

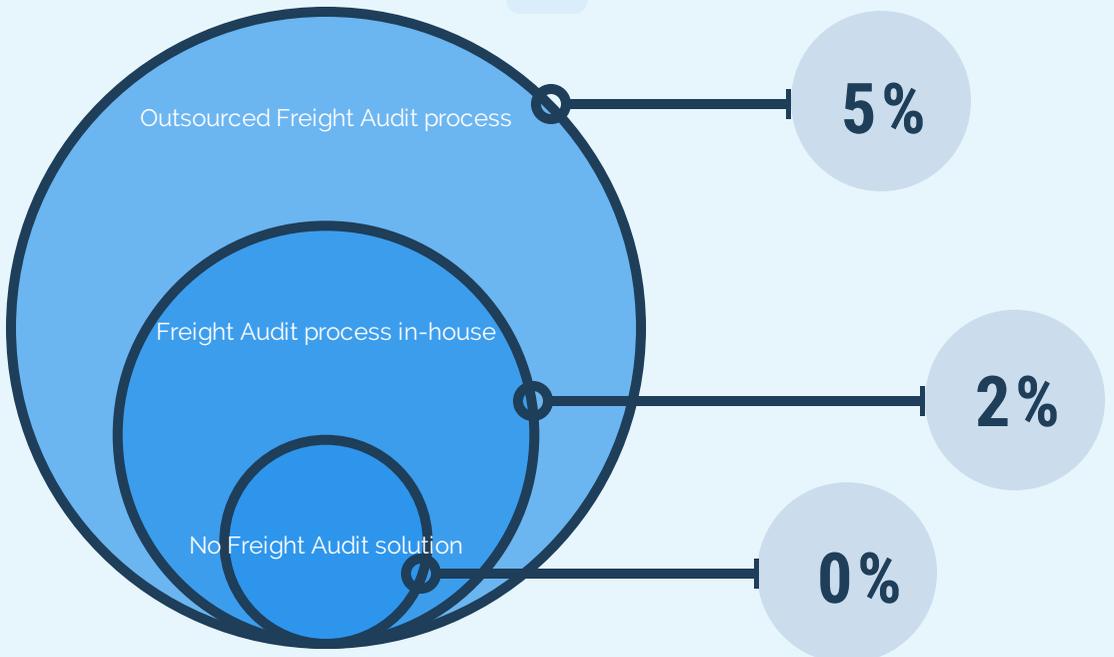

Carriers make more mistakes than you can see with the bare eye when you do a random check off the big stack of paper you receive from your carriers. You know they send you that for a reason right?

What is so complex in parcel billing?
