Our Purchase2Pay approach

Benefits of Freight Audit for the carrier

- Invoice status visibility
- Receives e-mail alerts about rejections or approval
- Carrier uses an online workflow tool for issues
- Saves time on creating an invoice
- Shipping data is always on-line available
- Underbilling is reported
- Carriers save time
- Improve their own invoicing quality

Benefits of Freight Audit for Logistics

- Logistics should no longer deal with invoice or payment inquiries
- Logistics Managers are only involved in exceptions via an online tool
- They can focus on operations
- Reporting/Accruals do not need to be created anymore as it is available via Business Intelligence
- Full visibility of processes, data and carrier performance
- Freight Audit data is a good source for benchmarking and tendering

Benefits of Freight Audit for Finance

- Payment can be centralized and practically be automated
- Account coding is automated and it can be done on a very detailed level
- Data can be used for a cost to serve analysis via Business Intelligence
- Reporting/Accruals do not need to be created anymore as it is available via Business Intelligence
- No more credit notes
- Reduced communication with Logistics and carriers
- Head count savings
